Become a client

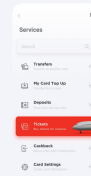

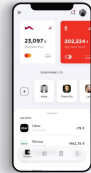

Creating an app for new clients is a complex task that requires a lot of attention to detail. The app should be easy to use and provide a seamless experience for the user.

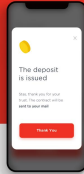

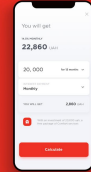

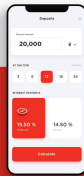

Account overview

User can view and check a necessary account with all capabilities. The user can also view the account details and manage the account.

Open Deposit

Users can understand and explore options of a product card with just 2 clicks and confirmation of information entered. The user can also view the account details, choose a period and deposit method, and view the interest rate and compare deposit account options.
